Welcome to Country Cousins

As parents ourselves, we know that sending a child to study overseas is a deeply emotional decision. It is important to focus on the positive impacts that this experience will bring. At Country Cousins our priorities are the promotion of self-confidence, international awareness and providing a healthy, safe and enjoyable learning environment for the practice and speaking of English.

Maribel Cabrera, Principal

When I was nine, I travelled to England from my home in Spain and began my Country Cousins journey. Until the age of 17 I spent every summer in North Devon and I grew confident enough in my English language skills to go on to study at the University of York.

I never forgot my experiences as a student - so much so that I came back as an adult with my wife Maribel and young family. We are proud to offer similar experiences to young people from all over the world.

"We would like to say a huge 'thank you' to every one of our students for coming to England to study with us, and thank you for letting us use your photos in this brochure. We hope to see you all soon!"

Channel School of English

Our school is situated within the green flag award winning Bicclescombe Park, in the picturesque harbour town of Ilfracombe, North Devon. It is a beautiful spacious Victorian building with a lot of history and stories to tell!

We have 14 well equipped classrooms, a student room to chill out at break times and a picnic area to enjoy the barbecues at lunch.

Channel School is open all year round for groups and during Easter and summer for individuals.

Class sizes average 12 students (maximum class size 15) and are mixed nationality wherever possible to increase English speaking opportunities.

Welcome Meetings - Sundays

Every Sunday we have an induction meeting at 11:30, where our team greets the students and explains their activity programme, shows them around the school and answers any questions they may have.

Students receive a welcome package including a student card, wristband, map and timetable for the week.

After the induction meeting students go back to have lunch with their families, spend time getting to know each other and familiarise themselves with the town. Homestays will bring students to the meeting.

First day at School - Mondays

On the first day students are divided into three sets according to age and choice of activity programme. This enables us to get a great international mix in activities and lessons, which encourages students to always speak English and make new international friends.

At Channel School of English we have three student sets:

Yellow: 6 – 13 years old
Green: 12 – 16 years old
Purple: 14 – 17 years old

Teaching & Learning Experiential English

We have a dynamic and approachable teaching team who are all experienced and qualified teachers. They are continually observed and encouraged to develop professionally.

Emphasis is placed on improving speaking, listening and functional language skills. Speech is initiated with many exercises from pair and group work to individual presentations, group discussions, debates, role-plays, simulations, music, drama and games.

Materials are varied, lively and up-to-date. The use of technology in the classrooms has opened up a new world of engagement, personalised learning and collaboration for our junior students.

Every classroom has Wi-Fi and is equipped with a projector. Students are provided with tablets to carry out blended-learning activities. Students take an initial language assessment test and are allocated to the class best suited to their linguistic ability and level (A2, B1, B2, or C1).

Students will receive a course certificate at the end of their course with the level they have been learning at and their teacher's personal comments.

Accommodation – Homestay Providers

Living in homestay accommodation gives your child the perfect opportunity to experience English life and to practise their language skills in everyday situations.

Our homestays are all carefully selected, site visited, trained, supported and inspected by our experienced welfare team. Homestays treat their visitors as one of the family, providing a happy and secure environment.

Unlike other schools, we manage the relationship with our homestays ourselves, we do not use agencies – this means that we know each and every one and match students to the settings in which we feel they will be most at home.

Students of different nationalities are placed within the same homestay to encourage spoken English, which can often lead to life-long friendships!

Kind and welcoming
local accommodation

Students can expect to...

- share a room with another student (max 2 per room)
- have only one other person of the same nationality in the home (except by request and school mini stays)
- have their basic laundry done; bed linen and towels supplied
- spend Sundays with their homestay
- have breakfast, packed lunch (on weekdays) and evening meal.
- have direct access to our welfare team, 24 hours a day, in case of emergencies or urgent issues

“Meeting people from all over the world is amazing.
My host family was wonderful and so is my roommate.”

Han Wang, Chinese, aged 16

Promoting Acceptance of Language Students (PALS)

The PALS scheme has been running successfully since 2012 and involves young local people who, during their school holidays, will:

- Integrate with our students
- Attend activities
- Assist in familiarising our students with the area
- Interact with them to ensure they feel welcome
- Encourage all students to be involved

“A worthy project that is very effective”

British Council

The scheme won an international ELTons Award for Local Innovation from the British Council in 2014.
